RE: **Redwood Plaza Shopping Center Voluntary Cleanup Site (VCP # C017)**
1740 West 700 North, Salt Lake City, Utah

CERTIFICATE OF COMPLETION

RECEIVED
APR 14 2008
DEQ
Environmental Response & Remediation

1. Compliance with Terms of Voluntary Cleanup Program

The Executive Director of the Utah Department of Environmental Quality, through his undersigned designee below, has determined that Redwood Plaza LLC, hereinafter referred to as "Applicant," has completed a Utah Department of Environmental Quality ("UDEQ") supervised voluntary cleanup of the real property described in Attachment A (the "Property"), in accordance with sections 19-8-108 and 19-8-110 of the Utah Code Annotated and the Voluntary Cleanup Agreement entered into on March 31, 2000 and amended on May 24, 2004. The Applicant is granted this Certificate of Completion ("COC") pursuant to section 19-8-111 and subject to the conditions set forth in section three below. Figures depicting the Property are located in Attachment B.

2. Acknowledgment of Protection From Liability

This COC acknowledges protection from liability provided by section 19-8-113 of the Utah Code Annotated to an Applicant who is not responsible for the contamination under the provisions listed in subsection 19-8-113(1)(b) at the time the Applicant applies to enter into a Voluntary Cleanup Agreement, and to future owners who acquire the Property covered by this COC, and to lenders who make loans secured by the Property covered by the COC.

As set forth in section 19-8-113, this release of liability is not available to an owner or lender who was originally responsible for a release or contamination, or to an owner or lender who changes the land use from the use specified in the COC if the changed use or uses may reasonably be expected to result in increased risks to human health or the environment, or to an owner or lender who causes further releases on the Property. Also, there is no release from liability if the COC is obtained by fraud, misrepresentation, or the knowing failure to disclose material information. Finally, protection from liability is limited to contamination identified in the documents related to the investigation and cleanup of the Property.

SCANNED

DERR-2008-001569

3. Specified Land Use for Certificate of Completion

This COC is issued based on the Applicant's representation that the Property will be used for commercial/retail and/or industrial uses, consistent with the commercial/industrial worker exposure scenario described in the Risk Assessment Guidance for Superfund, Volume I, Human Health Evaluation, Parts A and B. The commercial/industrial scenario is defined as exposure to adults to incidental ingestion and dermal contact to hazardous constituents for a duration of 25 years at a frequency of 250 days a year for eight hours a day.

This COC is not issued for use of the Property for managed care facilities, hospitals, residential use (including caretakers that reside on the Property), or for day care and school facilities. Uses that are not anticipated as stated above would be inappropriate and unacceptable for the Property. Additional investigation and possible remediation would be required, and the COC amended to allow for those uses. Since those uses were neither represented nor approved, they would nullify the release of liability and coverage of this COC described in section two above.

In addition, this COC is issued based upon compliance with the COC, as well as the Site Management Plan (SMP), dated Decemeber 18, 2007. The COC and SMP, among other things, require:

- a. The Property shall be used in a manner that is consistent with the land use described in section three above;
- b. Non-use of the groundwater located beneath the Property via wells, pits, sumps or other means for the purpose of irrigation, drinking or bathing;
- c. The Site Management Plan is implemented as proposed;
- d. The groundwater is monitored as described in the SMP;
- e. Reports are submitted to UDEQ as described in the SMP;
- f. Continued reimbursement to UDEQ for its oversight of activities under the SMP;
- g. Continued consent to access by UDEQ to monitor compliance with the SMP;
- h. Compliance with the Contingency Plan described in the SMP; and
- i. Compliance with the Environmental Covenant recorded with the Salt Lake County Recorder on March 10, 2008 in Book 9580 on pages 3043-3053.

4. Unavailability of Release of Liability

Use of the Property that is not consistent with section three including failure to comply with the SMP described in section three shall constitute a change in land use expected to result in increased risks to human health/the environment making the release of liability in section two unavailable.

5. Amended Certificate of Completion

Upon completion of the SMP, the Applicant, current or future owners, or lenders may request the UDEQ to record an amended COC to delete compliance with the SMP as a condition of land use.

6. Availability of Records

All documents discussed in this COC are on file and may be reviewed at the UDEQ/ Division of Environmental Response and Remediation office located at 168 North 1950 West, Salt Lake City, Utah.

7. Final Signature for Redwood Plaza Certificate of Completion

Dated this 26th day of MARCH 2008.

Brad T. Johnson

Brad T Johnson, Director
Division of Environmental Response and Remediation
And Authorized Representative of the
